## Memorandum Book of John Ewing

May 31st 1784.

Mr. Rittenhouse & I agreed to observe the same method in fixing our meridian lines at our different stations which was by ye Passage of  $\delta$  ursa minoris and of a Libra over the meridian By his calculation the Difference of Time between Their Passages is 12-33 but by mine it is but 12-33.

This being previously agreed upon a small error in ye position of our Meridian cannot affect our observations as they must be parallel to each other, should such an error take place. We agreed also to view Sirius passing the meridian every Day, when ye sky was serene for regulating our clocks as well as ye Passage of the Suns Simbo over ye Wires of ye Transit Instrument, and also to take equal altitudes of ye Sun & Stars, when it could be done, for the same purpose. The Difference of our Meridians is to be determined by the Eclipses of Jupiters Moons and the occultation of Stars by the Moon, which are therefore to be observed from ye first of July till ye 20th of Sept. when the Eastern Observers are to set off to come to us with their Observations, for the completion of ye work.

N. B. When ye Transit Instrument is to be used, the Object End is to be pulled out about half an inch to rectify the Line of Collemation.

The view Sirius, it must be elevated to the angle of 33-37-30.

Sirius passes the meridian on July 1st 1784 at 11-54-6 M. Time.

May 31st 1784. Began to pack up the Instruments & Baggage for my expedition to settle the Boundaries of ye State of Pennsylvania.

June 2d. Set off from Philada. & proceeded to Octoraran where Mr. Hutchins came to me; from thence we passed on to York where we arrived on ye 10th at evening, having on that day fallen in with Coll. Porter our commissary. The road very good, but ye Land poor and ill tempered, few streams but muddy.

11th. Waited at York to get a new axle in our carriage as the former had split in the nave in the second Day's Journey. This Day it rained so that we could make no observations to

ascertain ye Latitude of this town, but Mr. Archd. McClean informs us that it is 17 miles North of the West Line or southern Boundary of ye State which will make the Latitude 39-58-2.

12th. Set forward on our Journey, breakfasted at Wolf's Tavern, five M. from York Town, & dined at ye Widow Kuhn Tavern 14 miles farther or 19 M. from York. The road level & good, but cut in some places with waggons. The Land rich & fertile & fit for producing good crops of Wheat. The Codorus or Pidgeon Hills lying to ye left of ye road and nearly parallel to its Direction at ye Distance of one two & three miles, in sundry places. These Hills seem to terminate here & ye South Mountain begins to appear before us, which lies about 20 miles forwd.

The Codorus Creek crosses our Road at York Town & thence flows to ye Susquehanna on ye South Side of them. At the Distance of 15 miles from York we passed this morning, thro a small town, named Abbot's Town containing about 40 Dwelling Houses, with a church belonging to the German Lutherans & one belonging to ye gn. Calvinists.

We crossed many streams of water this morning which run Northward into Conewago Creek. About a mile forward we crossed the little Conewago, about a mile above its Junction, with the large Branch.

McCalister's Town lies about South Easterly from ye Widow Khun's distance  $6\frac{1}{2}$  miles & that lies about 4 miles N. of ye Line so that we are now about 10 miles due north of the Line at this Tavern. Hence the general Direction of our Road from York is about W. by S.

The Road from Widow Kuhn's to Mr. Gettiss lies thro poor Land in general. The Dist. is 10 miles. About  $\frac{3}{4}$  of a mile from here we crossed Rock Creek a Branch of Monockesy which falls into Potowmac. About three miles we pass over Marsh Creek and about 7 miles farther we cross Tom's Creek, both branches of ye same Monockesy. This lies at the foot of ye South Mountain which lies 10 miles from Mr. Gettiss's Tavern. We now enter good Land called ye Marsh Creek Settlement, which extends to Carrol's Tract lying between it & ye South mountain.

13. Sunday; Rested with Coll. McPherson & preached for Mr. Black.

14. Set off from Coll. McPherson's in the morning. Col. McPherson, Mr. McConaughy & Mr. Moses McClean accompanied us to Adam Cosaes on ye South Mountain. Dined there, about 12 miles from Coll. McPhersons. They dined with us.

The Land of Marsh Creek Settlement is very good & ye crops seem promising. And there are some Plantations on the mountain which at Nicholsons Gap is about 10 miles across

—About 2 miles crossed the red Run & about  $4\frac{1}{2}$  miles crossed it again. About  $1\frac{1}{2}$  miles crossed Antietam Creek which falls into Potowmack about  $2\frac{1}{2}$  miles from ye mouth of Connecocheague. It has three Branches, the Middle Branch crossed ye Road at Adam Smith's Tavern. At  $2\frac{1}{2}$  miles forward we cross ye Western Branch of Antietam. We now enter the Valley of Antietam & Connecocheague containing Very good Land, fine crops. Five miles farther we come to Gordon's Tavern, & about 10 miles farther we come to Coll. Alison's, Cronpleton's Town is about 7 miles from this Tavern. Lodged all night with Coll. Johnson about a mile from Gordon's Tavern. Connecocheague runs down ye North Mon. while Antietam runs near to ye South Mountain. They are divided by a small Ridge that runs thro ye Valley. Gordon's Tavern is about 4 miles North of ye Line of ye State, which crosses ye South Mo. about a mile below ye Road on ye Top.

15th. Breakfasted with Coll. Johnson and he & Coll. Smith accompanied us to Coll. Alison's where we overtook the Waggon and stayed to dine with him. The Land in this valley is exceedingly rich in general, and from the Quantity of rain that has fallen this Spring the crops look very promising. The Land being Limestone, the crops are liable to fail in a dry season; but in this season, the people expect 20 Bushels of wheat to ye acre. After Dinner we passed on in our Journey & crossed ye East Branch of Connecocheague, which is about 60 yards wide & 2 feet deep. We passed this afternoon thro what is more properly called ye Connecocheague Settlement, which is in general a Slaty or Shelly Land not so rich as the Antietam Settlement, yet ye crops look very well. In the evening we came to ye Rev. Mr. King's with whom we lodged that night. He lives on ye West Branch of Connecocheague which is nearly as large as the other, at McDowell's Mill & close by Parnel's nob which is on high spur of ye North Mountain near to fort Loudon.

16th. Left Mr. King's and passed up the Path Valley leaving Parnel's Nob to the right Hand, with the Tuscarora Mountn. on our left. After proceeding up the valley 10 miles we came to Jamison's Tavern, where we dined, Mr. McFarland having accompanied us so far. There is but little good land yet appearing tho some few houses are to be found along

the Road. About 4 miles before we came to the Tavern we passed Tom's Tavern who also keeps a store (where I bt. a pr. grs.) Twelve miles forward we come to Fort Littleton. Sherman's Valley lies northwards of the Path Valley between the same mountains. About 3 miles from Jamison's Tavern we passed out of the Path Valley over the Tuscaroroh Hill into Auchwick Valley having the great Cove Mountain on our west and another rising on the East and turning towards ye West on our right Hand ended in an high Peak at Fort Littleton called the Shade Mountain.

The Land in this Valley is miserably poor & no settlements in it except a few Houses built on the Road to accommodate Passengers. The Hills are covered with poor Pines and ye Land very Stony, not fit to bear any grain of sufficient value to pay ye expence of culture. About 8 miles from Fort Littleton we passed little Auchwick passes by the Fort, and joins Sideling Creek about five miles below the Fort, from thence it received the name of big Auchwick and afterwards falls into the Juniata. Lodged at Bird's Tavern at F. Littleton.

17th. Set off on our Journey towards ye Sidelsing Hill which it 10 miles Distant. The Road leads thro a poor hilly country covered with Pines & Barren Oaks, a sandy soil mixed with slate & not fit for cultivations, no Plantations on the Road & but a few Huts for the Accomodation of strangers at about 5 miles from Litteton we passed over Scrub Ridge, which is an irregular congeries of Hills lying in the Direction of North & South a little inclining to the Westward. Dined at the Foot of Sid'eling Hill at McDonell's Tavern. Woodbridge Creek runs thro the Sidlong Hill, or rather rises near the Top of the Hill and runs till it joins Auchwick Creek, a Branch of Juniata. At 10 miles from this Tavern we come to the great Crossings of Juniata, and at ye Distance of 14 miles farther we come to Bedford. The Cove Mountains appears to the East over the Scrubby Hill from ye Tavern where we dined. From McDonnell's Tavern to ye Top of ye Sidlong Hill and along the Ridge called Rays Hill we passed over a wretched bad road, for seven miles, full of Stones without any repair for many years past, having Well's Valley on our right hand which contains 4 or 5 thousand acres of good Land. On ye left Hand we had a valley between ye Sidlong Hill & Rays Hill called Brush Creek Valley in which Mr. Hunter has a Survey of 600 acres. John Crevins (2) keeps a Tavern at ye Foot of Ray's Hill & from there to Juniata is good Road, tho hilly, till we come here.

The Roads ought to be made good at the public charge because the People are few that live near them & it is ye only way to preserve the communication between Philada. & the Western End of the State so that otherwise ye Trade of ye Western Part of ye State must necessarily go to Baltimore, as the Inhabitants are endeavoring by the bid of their Legislature, to open a Road to Pittsburg That will be so far superior to the present Roads as to induce the People to prefer that Market. Lodged at Crossings of Juniata at Coll. Martin's & supped on a fresh Salmon.

18. Proceeded on our Journey towards Bedford, which is 14 miles distant. At seven miles distance we cross a gap of Terrace or Tusties Mountain, thro which ye Juniata runs and near Bedford we pass thro Dannins or Evits Mountain by a Gap, thro which Dennin Creek runs. But before we come to this mountain we pass thro Alegulppy Ridge, & then come to ye Bloody Run & Warriors Mountains, after which we come to Dunnins Mountain. On the East of Tusties Mountain lies the Warriors Ridge which continues up to ye Standing Stone. The Road thro which we came to ye Warrior's Mountain lies thro a good Piece of Land, fit for ye cultivation of wheat & rye & corn pretty well timbered with White Oaks, Pines, Black Oaks & Hickories. John Paxton keeps ye Tavern at ye Warrior's Mn. or Bloody Run; so called from the murder of a number of People sent to escort Provisions to Mr. Buchanan who was surveying ye Roads to Bedford in ye year 1755. The road pretty good from Juniata Crossing to this Tavern excepting the Descent of ye Aligulppy Hill which is steep, long & stony. The Road from this Bedford & ye country pretty much ye same with what we passed this day. Dined at Bedford and after Dinner took two Altitudes of ye Sun by Mr. Hutchins little Quadrant for ascertaining ye Latitude when ye error of ye Instrument is ascertained. The observations are:

Waited that afternoon for our Waggons, but they could not reach the Town some of their Horses having strayed away on that night, the waggons did not arrive at Bedford until the next Day at noon or rather near evening.

19th. Waited this Day also for our waggons, which did not arrive till near the evening & could not proceed further.

20th. Sunday stayed at Bedford. The wagons would have proceeded as we now began to be apprehensive from ye Badness of the Roads that we should not be able to reach the Station before the storm by which we were to ascertain our Meridian would pass it in Day Light; but they were retarded by Mr. Dougherty's procuring them to be stopped.

21st. Set off very early & breakfasted at Mr. Todds, Coll. Porter having gone there before us on Saturday night. At Mr. Todds we saw the effects of a whirlwind, which extended about 80 Rods wid which broke & tore up the Trees by the Roots many of them not less than three feet in Diameter scarcely leaving a tree standing whole in its course. Mr. Todd's House & Barn were left without their Roofs and he being an eye witness of ye Catastrophe tells us that ye Limbs of ye Trees of a prodigious Size were whirled thro the air like leaves & carried to a great Distance. The effects of this whirlwind have been observed by Travellers to have begun about Crooked Creek which empties into ye Allegeny River above Fort Pitt, and to have proceeded on to Bedford marking its way with an incredible Destruction of ye Timber. This whirlwind happened about 10 days ago viz on Friday ye 11th June. We have no accounts of its proceeding farther than Wills or Evits Mountain which lies on ye West of Bedford about 4 miles. After passing about 4 miles we get on the dry Ridge which extends 11 miles and after passing thro a low valley in which we find a small stream of water we begin to ascend the Allegeny Mountain at ye Distance of 17 miles from Mr. Todd's. The Land from Mr. Todd's to ye foot of ye dry Ridge is very good, well timbered & fit for ye Production of any grain the wood generally is White Oak & black oak with some Walnut & a few Locusts. The Roads free from Stones & pretty level, but cut with Waggons & without Repair. There are 3 or 4 Families living on ye Lands who seem to live plentifully. Before we come to ye Dry Ridge we passed a Brook which seems to be the Bedford Branch of ye Juniata after which we see no more water till we get off this Ridge. We crossed ye sd. Branch about a mile before we came to Mr. Todd's & again two miles after we passed his house. Wills Mountain on our left about 1 or 2 miles. The Road lies along the top of ye Ridge & pretty level, excepting 4 or 5 Descents & Ascents. It seems as if it never had been opened by an ax, and never repaired. It is so narrow that it is generally

impossible to avoid ye Ruts which in some places are deep. With a very small expense it might be made very good this Ridge is middling good Land but uninhabited because there is no Water for ye Inhabitants. There is a small spring about ye middle of ye Ridge. The Western End of ye Ridge is better Land covered with larger Timber, the Descent is pretty steep & stony. The road along ye Western End is more cut with Waggons & very narrow so that ye Ruts cannot be avoided. At ye West End there is a spring after which we pass over another Ridge called the three Lick Ridge from this number of Salt Springs or Licks found in it near to our Road. This Dry Ridge divides the Waters of ye Juniata from those of Wills Creeck or ye Potowmack. The Summit of ye Ridge seems generally to be no more than 200 yards wide. We stopped 2 miles beyond ye spring where there is an Ordinary where they sell drink, but no victuals. About half a mile farther after passing along a valley in which a Branch of ye Juniata rises we began to ascend a Ridge or spur of ye Allegheny Mountain which extends Eastward about 3 miles from it. The ascent was very steep & stony for about 200 yards & afterwards gradual and easy to ye Summit & the road on ye Summit good, being neither stony nor cut with waggons. The road is nearly made and may be greatly improved by beginning ye ascent a little sooner and raising it gradually along ye side of the Hill. As this Road continues along the summit of the spur, till its Junction with the Mountain, it gives a great advantage in ascending it, as the Summit of the Allegheny is not much higher and the ascent is easy & long. There is another road, farther up the valley before mentioned, which joins with this about half a mile from ye mountain, which is now so stony, miry & cut with waggons as to be impossible. On the Eastern side of the Allegheny many streams of excellent water burst out, for the Refreshment of Travellers.

From the Ordinary on the East Side to Mr. Black's Tavern in the glades is about 10 miles, to the Summit of ye mountain about 4, across ye summit about 2 miles, the Descent on ye Western Side about one & from thence, to Black's three mi. Near the summit there is a deep pond of stagnant water, and about half a mile to ye Westward of it, ye waters divide which flow to the Ohio & ye Chesapeak. The Descent on the Western Side is by a very Stony & Road which continues to be very bad until we enter ye great glades, about two miles from Block's Tavern. The soil on ye mountain is rich & fertile but so very stony that it can easily be cultivated. In

the evening we came to Block Tavern two miles in ye glades, and lodged there.

22d. Waited at Mr. Block's for ye Waggons till their arrival in ye evening, which occasioned our tarrying all night.

23d. Set off from Mr. Black's & proceeded to ye Foot of ye Laurel Hill 16 miles, viz, 3 miles to Gilmore's, 5 to Augony's & 3 to Cooper's where we dined. The road thro the glades was very level & excepting in a few places very good, which might be easily mended & with a very small expense. In some places ye Land exceeding poor & in others tolerably good, a few Places are well timbered with white oaks, Black Oaks & chestnut. From Cooper's to Cairn's across ye Laurel Hill is 9 miles of which 8 miles lie across ye Mn. to Indian Creek or Salt Creek & one mile farther to Cairn's. From Cairn's to Cherry's Mill 8 miles. The Land on this Hill is a rich deep soil abounding with chestnut, Oaks, Poplars, there are some Locust & Papaw Bushes. The stones on this gap are all Freestone fit for Grindstones & Building. Altho in other Parts of ye Mn. are found Stones for Milstones. On ye Summit of ye mountain it is too stony to admit of cultivation, yet on each side ye Land is rich & arable & well timbered and most fertile Land lies on ye West side of it. The Road across this Part of ye Mountain is pretty good, ye ascent & descent very easy & not much obstructed with stones.

With a small expense it may be made ye best way to cross ye mountain. The Road across here divides ye counties of Fyette & Westmoreland. From Indian creek to Jacob's Creek ye road lies across ye chestnut Ridges where ye Land is thin & stoney, abounding with chestnut & Wh. Ok.

Lodged at Mr. Cherry's this night.

24th. Waited for ye arrival of our waggons, which by mistake we supposed had taken a Road to ye Right of ours, & crossed at William's gap. The waggons did not arrive in the evening.

25th. Waited for the waggons and at 3 o'clock heard nothing from ther. At Mr. Cherry's Mill we are about thirty miles north of ye Line.

26. Heard that ye waggons had not taken ye other Road but had been delayed by being broken on ye Laurel Hill, upon which we took our horses and returned to look for them, & found them about 2 o'clock & not quite repaired. Returned again in ye evening with ye Light Waggon & the waggon that carried our Instruments to Mr. Cherry.

27th. Being Sunday rested at Mr. Cherry's & ye wagons arriv'd.

28th. Set off from Mr. Cherry's accompanied by Mr. Cherry & Mr. Brady 5 miles. On Sunday Evening our Express returned from Besen's Tavern with a letter from Dr. Madison requesting an interview at Mrs. Crawford's at Stewart's crossings about 2 miles above ye broad Ford on the Yohiageny. This occasioned an alteration in our Rout and the Waggon were ordered to proceed to Besen's Town. We met Dr. Madison at Mrs. Crawford's attended by Coll. McClean & Major Douglas of that town. From Mr. Cherry's to ye crossings is 10 miles pretty good Road being mostly ye Road opened by Genl. Braddock.

The land along ye Road is rich & fertile pretty level well timbered & watered abounding chiefly with White Oaks, and the crops exceedingly luxuriant. Dined at Mrs. Crawford's the widow of Coll. Crawford, who was murdered by the Indians and after Dinner proceeded to Besen's Tavern 12 miles farther that Evening where we lodged at Mr. Hasten's Tavern. In the afternoon we passed thro richer Land than in the morning, where the Improvements were larger, and ye crops more luxuriant. About half way between Mrs. Crawford's & Besen's Town we passed thro Giusts Tract of a thousand Acres, which was the best & largest Plot of Land we had seen on this Side of ye Mountains. The Laurel Hill ran nearly parellel to our Road. The general Direction of the Mountain is S 15 W. but our Road nearly South. At Besen's Town we crossed Redstone Creek where ye water is brought thro ye Town to Turn a Saw mill. There are near 30 Houses in this Place, which is now made the County Town of Fiatt.

At half a mile from Mrs. Crawford's there is a most beautiful cascade in Harrison's Run where the water falls perpendicularly over a broad Limestone Rock about 20 feet. This Rock in Front is hollowed into a regular semicircle about 150 yards in circumference and is about 8 or 10 inches thick. It projects about 10 or 12 feet over 15 or 20 strata of Stones of different Thicknesses regularly disposed, whose Front is also hollowed in a regular curve of a concentric circle, making a perpendicular curved wall under the projecting thin Rock, as if it had been formed of hewn stones, whose Ranges are of different Thicknesses & laid by the Hand of a Mason; the stones in each of these Ranges are nearly of the same thickness from one end of ye arch to ye other but the upper Plate over which ye water falls is one continued stone, under which

there is a fine semicircular Walk, between ye falling water & the Front of the different strata of Stones of about 10 or 12 feet broad; and the Pavement of this walk is another continued broad Stone similar to yt. which lies on the Top, and formed into a similar Semicircle and projecting to the same Distance.

This thin Rock is also supported by other similar strata of Stones for 5 or 6 feet deep to ye Bottom of ye Run where ye water falls.

By the assistance of a little Labour in removing some loose stones that lye on the Pavement, and also some of ye stones of ye strata under the second broad Rock, there may be formed a most ample & grand Amphitheatre with gallery above gallery unsupported by pillars.

29th. Waited for the waggons, Two of them came by noon and the other two in the evening or rather by 5 o'clock. Lodged at Mr. Huston's in Beson's Town that night.

30. Waited for ye Repairing of our Waggons at Union Town commonly called Beson's.

July 1st. Proceeded on our Journey attended by Mr. Alexr. McClean & Mr. Jacob Beson and after travelling  $7\frac{1}{2}$  miles came to Dunlap's Creek (at John More's) which creek falls into ye Monongahela at ye old Fort. Oley Crawford's Ferry on ye Monongahela is Distant from us  $4\frac{1}{2}$  miles. The Land thro which we passed this morning is rich & fertile producing good crops of wheat, rye, corn &c. It is generally covered with white & black Oak. The Land is hilly and ye Vallies are very rich abounding with Plumb Trees. At 5 miles from ye Ferry we come to Col. McCleary's in Washington county, where we lodged that night. The Land on this Side of ye River is more fertile & level than on ye East: the Roads are pretty good excepting the Descent on ye East side of monongahela, where we came down to ye Ferry is very steep & not yet made fit for a waggon, but might be made very good with a little Labour & expense. The streams of water thro this country generally fail in ye summer so that ye mills cannot go.

2d. Waited for our Waggons which came up in ye evening.

3rd. The Waggons proceeded in ye morning & we followed in ye afternoon towards Jackson's Fort which is 11 or 12 ms. distant from Col. McCleary's. To clines is 4 miles & from thence to Hagan's 4 more at ye coal lick run & from thence to Jackson's Fort 3 miles. From the Fort tis advised to take up Jackson's Creek to the dividing Ridge.

Angle of ye Line S 89-53' West Mason's & D. last Post marked 233—McClellan run 23 miles to a marked Poplar with 12 notches standing on ye N. E. side of a Ridge to ye stream Eastward of which is a small stream about 20 or 30 perches—the Line having crossed a Ridge & then thro a Valley in which ye stream runs northward for 80 perches & ye verges to ye West, and then ascends ye same Ridge which makes a ye Poplar.

The clock has lost 30" seconds in ye last 24 Hours. It loses 1."25 pr. Hour.

The Clock was 36" seconds too slow at Noon by ye equal Altitudes taken that Day, having lost 31 Seconds in the preceeding 24 But by the Equal Altitudes of ye subsequent Day viz ye 18 July, she was one minute & two seconds too slow, having lost only 26" in that Day, consequently she lost 13" by the 12 at Night, when ye Observations of ye Immersion

were made. Therefore  $35' + 13'' = 49''$  must be added as follows:

All other officers possesst of Contl. Horses are to return them to the Quarter Master Genl. as soon as possible, who is to make a proper Return of the whole in order that a committee from the several corps, may arange & assign them to the several corps, at a Genl. Cort Martial held on the 8th June whereof Major Fish was president Oliver Arnold of the second N. York Regt, was Tried for Desartion and sentenced to be shot to Death, the Genl. approves the sentence and order it to executed at the Head of the Regt—tomorrow afternoon at six oclock Edward Taylor of the same Regt tried by the same Cort for Desartion, found Guilty and sentenced to run the guantlet through cortland's Spencer's & Cilley's Regt with a sentinel at his Breast to regulete his pace, the Genl. approves the sentence & orders it to be executed at the head of the Regt tomorrow at six oclock in the afternoon.

Lieut. Munday Qr. Mr. to the 2d N. York Reg't tried by the same Cort Martial for behaving unbecoming the charecter of an Officer & Gentilman in accusing Capt. Greham, Hallet and Wright, & Doct'r Menema, of fraud and partiality in settleing his Rank, after they had been specially appointed by him for that parpose, found guilty of the charge and sentenced to be reprimanded in orders and ask pardon of Capt'n Greham, Hallet & Wright & Dr. Menema, waid on the gentilman before mentioned to-morrow at 4 o'clock in the afternoon at Col. Cortlands Marque, and ask their pardon.

However mortifying this sentence may be to Lt. Munday the Command'r in Chief canot but consider it as a light punishment for an Officer who after submting the dexion and settlement of his rank to gentlemen of his own choosing will

accuse them of Fraud & partiality barely because their judgment did not compound with his—it is impossible that the judgment of men appointed to settle a controversy can be perfectly Pleasing to both parties, and if the party dissatisfied may with impunity censor those who are appointed to determine the matter—there must soon be an end of that useful method of settling disputes. Lt. Munday must in this view of the Matter be conscious of his own errors as well as sensible of the Lenity of the Court Martial by which he was Tried by a Gen'l Court Martial of which Lt. Col. Smith is President, the following prisoners were tried & sentenced, viz—

John Thomas, of Spencers Regt. charged with stealing Hogs & found guilty is sentenced to receive fifty Lashes and return the money he received for the Hogs to the owner. Silas Simmons, Joseph Tucker & Thomas Coburn, of Celley's Regt. charged with stragling, from camp & killing a number of hogs the property of the Inhabitation found not guilty & sentenced to be released from confinement.

James Farmer, Charles McLaughlin, John Rush and Enoch Leonard, of the 1st Jersey Regt., tried & found guilty of stragling from camp and killing a number of hogs the property of the Inhabitation are sentenced to receive Twenty-five Lashes each.

Frances Walker & John Fettle tried for the same crime but found not guilty, are sentenced to be discharged from confinement. David Mamford, James Willhead and Josh Osborn, charged with the same crime and found guilty, are sentenced to receive each Twenty five Lashes. The Gen'l approve the several sentences and Orders the punishment to be inflicted at the head of the Reg't to whom they belong to at Roll Call this Evening, he likewise Orders the prisoners found not guilty to be immediately discharged from confinement.

The Gen'l Court Martial which of Lt. Colo. Smith is president to set To-morrow morning at 9 o'clock for the trial of such prisoners as may be brought before them.

Officers commanding Corps are requested to recommend a non-commissioned Officer as a Clerk to the Commissary at this Post.

The Gen'l congratulates the army on the glorious and important Intelligence just received from his Ex'y Gen'l Washington's Head Qrs. by a Letter from one of his Family of which the following is an extract—

Head Qrs. New Windsor 16 July, 4 ocl'k.

Permit me to congratulate you on the success of our army in this Quarter of a most glorious and interesting nature.

Brigadier Genl. Wain with part of the Light Infantry sur-

prised and took prisoners the whole of the Garreson Stony Point Last Night with all there Cannon Stors, Mortars, Howitz tents Baggage &c. without the toss of more than four or five privates—no officer killed or badly wounded—Genl. Wain received a slight in the Head with a musket Ball.

The garrison consisted of British and Newlevies, with two or three companies of grannadiers besides Artillery.

We have been able to obtain an exact list of the stors or prisoners but all account make near six hundred to have composed the garrison.

The Commander in Chief acquaints the Army that had the Bord of War complied with his Request and their own engagements respecting cloding at this Past would not now be suffering through want of any article in that way.

Altho he has been disappointed from time to time and had almost dispaired of receiving any suitable supplies of the kind yet, from late advice he promises himself the satisfaction of relceiving at least the absolute necessities of the Troops before they move from hence.

The honorable the Congress have been pleased to come to following Resolutions:

In Congress 22d June 1779.

Resolved,

That majors in consideration of their Extra duty as Brigade Inspectots and Majors of Brigade receive Forty four Dol'r pr. month in addition to their Regimental pay.

Resolved,

That Congress entertain a grateful sence of the vertues and services of those faithfull and zealous soldiers who at an early period engaged in the armies of this State during the War, and to encourage a continuence of their exertions; and as far as circomstances admit to put them on a footing pecunary matters with the soldiers, Gen'l Washington be empowered to order a gratuity of One Hundred Dollars each to be paid to the men so enlisted during the war, this gratuity to be Paid only to such soldiers as enlisted before the 23 Day of January 1779.

Resolved,

That the Adj't Gen'l for this time being, be also Asst. Inspector Genl.

At a Genl. Cort Martial whereof Colo. Shreve was president

held at Wyolusing on the 7th Inst. Captn. Vananglen Com-mis'y to Genl. Hands Brigade was tried for unjustifiably and casually beting & abusing serjant Richly of the German Regt. found guilty of the charge and sentenced to be severaly Rep-ramantid in Genl. Orders.

The Com'r in Chief approves the Sentence of the Cort and cannot helb observing that from the hole tenor of the Evi-dences recorded in Cort, it appears Capt. Wananglen was not only guilty of abuse of power, but manifested a malevolence of temper scarcely to be equalled. Through the Genl. will never countenance soldfars in disrespectfull behaviour to Off'r and Will entertain a poor opinion of an officer that Suffers himself to be insulted without emediately chastiseing the soldier who may attempt it, yet he can never sufer officers to beat or abuse soldiers wantonly. Blows should never be given except they are necessary to the preservation of order and discipline, and then unaccompanied with those marks of cruelty and manevolence which were apparent in the whole of Mr. Vanangelen's conduct what renders his behavior still more criminal is that he was a non-commiss'd off'r whome he made the object of his inhumanity & had it been a private soldier, the treatment could not attmit of the Least Justication. Capt. Vananglen is released from his arrest and cautioned against samuler conduct in future.

A Bort of Field officers whereof Colo. Cortland was Presi-dent appointed to Settle the rank of Lts. Swartz & Greanier of the German Batalion haveing reported that Lt. Greiner ough to retain the rank he now holds, the Com'r in chief therefore derects that he holds his ranks as here to for.

Commanding officers of Regts. & Corps. to have a Through-out examination of arms & accutraments & ammunition in there respective commands in and see that they be in proper readinss for action.

The army to hold themselves in readiness to move on the shortest notice as they will be soon called upon to march against an enemy whose savage Babarity to our fellow cettzen has rendered them proper object of our resentment.

The Gen'l assures them it empossible to be opposed with equal numbers nor he think that if ever their number were equal they could not withstand the bravary & decepline of the Troops he has the honour to command.

It ought never theless to be remembered that they are as-suret, disultory, and rapid enemy, siezing every advantage and availing themselves of every defeat on our part. Though

they can never withstand the Shock of brave and resolute Troops yet should we be so enattentive to our own safety as to give way before them they become the most dangerous and destructive enemy that can possible be conceived. The Following fugitives with all the annel & unrelenting hate of provailing cowards and are not satisfied with slaughter untill the have Totally distroyed their Oppenets. It there fore becomes every Officer and soldier to resolve never to fly before such a enemy but determine whein to Conquer or perish, which will ever enshure success.—The Genl. does not mention thoes things under the Least apprehension of whether officers or soldiers fealing in any part of there duty but that every one may go into action with the same spirit and dermination should this happily be the case nothing but an uncoman frown of providence can provint us from obtaining that success which will render pease and security to our frontiers and afford ever lasting honour to all concerned.

The Com'r in Chief having with great difficulty procured Shirts and frocks for those soldiers who are naked.

Officers Commanding Regt. & Corps are requested to make returns of such as have no frocks or coats, as also of such as have no shirts, that the may be supplied. It is expected that the Commanding officers will be paticularly attentive to see that no fraud be permitted in there returns as it would be unjust and dishonourable to the Last degree for Officers to Claime in our present circumstances of supplies more cloathing there is absolutely necessary.

Though the Genl. cannot help expresing the highest approbation of the resolute eaduct of Officers & soldiers in yesterday's execution yet he must again remind the troops of the

necessity of using those precaution which he has so repeatedly urged not resolution to with stand the onset of such determined Troops, yet they are Faithfull in stratagen secret in their designs and capable of taking in every advantage which the situation of the ground or own Inattention or want of caution may given them.

The proceeding of yesterday must Proof to every thinking Person the Propriety of former orders and the necessity of those.

The officers of regiments are possitively ordered not to be absent from their own commands whin ever their regiments are ordered to the Place where is a possibility of an attack from an enemy & the soldiers are cautioned against wantonly Throoughing there fire when the have no object to Level it at.

How exceedingly Pleasing must it Be to force or fier cowardly Lulking Savages, to see one fire from them produce a wanding discharge from all the muskets in a number of regts. without any kind of aim meaning or an Order & Levelled at no object, but endaingering thire officers who are endeavouring to restore them to order & spreading carnage among themselves. Painful as it is, the Gen'l must say much of the mischief done yesterday to our own Troops was done by ourselves who in every Part of their Cunduct proved that they had suficient Bravery to engage & Conquer ten times their number of their dastardly foes.

As it is the Buisness of Officers to derect the fire of their Troops it is Possitively ordered that the officers in Future draw up their Troops in of an attack & point out the object against which their fire is to be derected and and the soldiers are possitively forbidden to Fire without first having received those deractions from their officers.

It is with Great Grief and astonishment the Commander in Chief is informed that some of the soldiers should steal the stores of the army and even the Private allowance of their messmats while others are so will as to throw away their own provision. The Discovers a unjust and ungenerous Disposition as well as an Inattention to their own comfort & safety. The genl. Declares that as the army has drawn provision to a certain Period he will not suffer the army to return through want of provision untill that period be expired.

The Gen'l also positively declares that he will order 500 Lashes to be inflicted upon any person Deected in the before mentioned offenders to an addition thereto to draw only five pound of Flour & meat pr. week during the campaign. The

Genl. be well convinced of the Inattention of some Brigade Commisy's & conductors of horses possitively orders that the Brigade Com'y be answerable for all the Provisions Delivered to them and that they make the Conducters accountable to them when provision are lost no Excuse will be admitted Except the Brigadier of the day upon having evidences Certifys that the Loss was inevitable—All other Losses are to be accounted for by the Commisy's & Conducters the are to have an Intire stoppage of their wages untill the same be compensated as the Trocps will have such a Quantity of corn & beans at the place as will be amply sufficient for a days provision the flour they have en hand is to extend one day Longer than it was Issued for.

The Commander in Chief with highest satisfaction returns his sincere thanks to the Officers & soldiers of the army for their Brave & Soldier like conduct yesterday. No Troops could have manifested more eagerness for the combat than those who where not immediately engaged and none more bravery & coolness then those who were in action.

The Gen'l in a special manner returns his Thanks to Genl. Poor, the officers & soldiers of his Brigade for the firmness & resolution with which they opposed and routed the enemy. he also returns his Thanks to Major Parr and the Troops under his command for the brave stand they made he is sensible of the obligation he is under to every Genl. & commiss'd Officer for the Particular attention to his Orders and cheerfulness they shew in Executing every direction, he cannot help expressing his satisfaction with the conduct of Colo. Procter and the officers & men of the artillery.—Capt. Macken Lts. Stephen & Jenkins have his cordial thanks for their services they rendered the army by their Vigilence and Executions—it is with Pleasure he declares the conduct of the whole army as fully convinced that Every futer Attempt to oppose their progress must be vain & fruitless, the same signals as yesterday will notify the march of the army. Genl. Clinton is appointed president of a Cort Martial to sit at 2 oel'k this afternoon for the Trial of Commisary Steel. Each Brigade to furnish one Field offr. & three Captains. Captn. After Orders.

Head Quarters, New Town

Augt. 30.

The Commander in Chief informs the Troops that he used every affort to procure proper supplies for the army and to obtain a sufficient number of Horses to Transport them but owing to the inattention of those whose business it was to make the necessary provisions he faild of obtaining such an ample supply's on hand wil not without the greatest prudence enable him to complete the Business of the Expedition

he therefore Requests the Several Brigadiers & officers com'g Corps to Take the minds of the Troop under their Respective commands whether they will while in this country which abounds in corne & every oter kind of Vegitable be content to Draw half a Pound of Flour & a half Pound of meet & solt pr. day.

He desires the Troops to give their opinion upon the proposal with freedom and as soon as possible should they generally fall in with the porposalls, he promises that they shall be Paid for that Part of the Rations which is held back at the full value in money he flatters himself that the that the Troops who have discovered so much Bravery and firmness will freely consent to a Measure so Essentially to accomplish the important purposes of this expedition, and to enable them to add to the Laurels they have already gained. The enemy have subsisted a number of days on corn without either salt, Bread meat or flour & the Genl. cannot persuade himself that Troops who so far surpass them in valour and true Bravery will suffer themselves to be out done in that fortitude and perseverance which not only distinguishes but dignifies the soldiers —The does not mean to continue this thro the Campaign but only wishes it to be adopted in those places where Vegetables may supply the Place of Part of the common Rations of meat & flour & he thinks with a plenty of Vegetables, half of a common Ration of meat & flour will be much better then the whole without any.

The Troops will Please to Consider the matter, and give their opinion as soon as possible.

The order of the 31 Ultimo not being sufficiently explicit the Gen'l thinks proper to mention that as the Flanking Division most act in conjunction with the first Line in case of an attack in front they must be Considered as under the Command of the Genl. Offrs. Commanding the Right & Left wing of the first Line.—Notwithstanding which they are to attend to the Genl. Orders given them in the order of Battle and act accordingly unless the Officer Commanding the wings should find it necessary to give Contrary orders should the flanking Divisions be obliged to return to the Relcef of the second Line, they are to consider themselves in time of action under the command of Genl. Clinton should find it necessary—to give Different Derection—The Gen'l considering the Flanks in this Light did not particularly mention the Right Flanking

Division in the order of the 30th ultimo tho he considered them as part of Genl. Poor's Brigade and meant to Tank them for their Bravery on the day of action.

The Genl. not being before notified which of the York Regts. ware in the action takes the oppertunity of returning his thanks to the officers & soldiers of Colo. Gansworth & Dubois's Regts. for their bravery and conduct on that day.

The Com'r in Chief positively forbids any Officer or Soldiers purches for their own use those horses of the enemy

which may be taken, and he Directs that those which may hear after be captured be immediately carried to the Qr. Master Genl. and by him purchased for the use of the army—the Qr. Master is also Directed to take all such horses as may hear after be found in their possession, allowing the capturs or owners a reasonable vallue for the same—He calls upon the Officers and more especially the Officers of the Day to see that the horses are not loaded with Blunder or any unnecessary Paggage burthens which if Effectually prevented will greatly injure the army.

He is sorry to Mention that so Little attention is paid to his Orders against firing, is too Evident and will at all Times enable the enemy to fire upon the army and retire with impunity, it being impossible to distinguish their and our own frequent & Imprudent firing.

He has with Great and concern observed that by the inattention of the conductors of Pack Horses the Line of March is so lengthened that the several Divisions of the army are thrown out of supporting Distance & the whole thereby endangered. He therefore in the most positive manner Declare he will punish every breach of the orders of march in futher.

The Genl. cannot help observing that instect of one Pack Horseman only being appropriated to every five horses there are a variety of instances of Officers waiters being employed to conduct one horse only which weekens the force of the army in a very great measure and Totally unnecessary as one of those waiters may with ease lead five horses and at the same time keep up with the Officers to whom they Belong—it would unjurous in a Campaign of a Different nature from this to request Officers to comply with those regulations, which are essentially necessary on this Expition the non observance of which probably produce the most recenous consiquences.

The troops hold themselves in rediness to move in the Shortest Notice.

At a Gen'l Court Martial whereof Colo. Willis was President. Colo Hasen was Try'd on the following charges for Disobeying of Orders, and unmilitary Conduct on the March from Tapon to the Liberty Pole in Halting the Brigade under his Command without any orders therefor from the General Commanding the Division and thereby occasioning a Vacancy of a half mile in the Center of the left Column and for an officer & un Gentleman like Behaviour in falsely Asserting he had received such Orders from Gen'l Starls. The Court are of Opinion that on the March from Tapen to the Liberty Pole, Colo. Hasen Halted the Brigade under his Command and occasion'd a Vacancy in the Left Column But as it appears to them that he had Orders from the General Commanding the Division to Halt, they do therefore Honourably acquit him of Disobedience of Orders & unmilitary Conduct in the Instance contained in this charge. The Court do also Honourably acquit Colo. Hasen of an officer & un Gentlemen like Behaviour In asserting he had Orders from Gen'l Starks to Halt which this charge says he had not——

The Commander in Chief approves the sentence but as it appears to have been a matter of question—whether a Brigadier or Officer Commanding a Brigade in a Line of March has Discretionary power to order Halts. The Gen'l thinks it necessary to declare that it is highly Improper for him to do so but in Case of Extreme necessity when the Halt and Cause of it should be Immediately Reported to the Officer Commanding the Division who is at the same moment to Inform the Genl. or Command'g Officer of the Column that he may take measures accordingly to Prevent a Separation of the Column

and the bad Consequences that may result therefrom, it is never the less the duty of Brigadeers or Officers Commanding Brigades if he finds his men fatigued & suffering for want of Water or in need of a Halt from any other good reason to make Immediate representation to the Officer under whom it may be Commanded & to the Officer Commanding the Column.

Colo. Hason is released from arrest The Court Martial whereof Colo. Willis was President is Dissolved.

The profederal Trame of Circumstances which let to it affording the most Convinceing prove that Liberty of America is the object of Divine production, at the same time that the Treason is to be Recreted. The Gen'l cannot help Congratulating the Army on the Happy Discovery, sur Enemy's despairing of Carrying their Base art to Effect by Bribery & Corruption what they cannot accomplish in a mannerly way.

Great Honour is due the American Army that this is the first instance of treason of the kind where many were to be expected from the Nature of the Dispute and nothing is so bright an Ornament in the character of the American Soldiers as their having proved against all the Arts and Seductions of an Insidious Enemy.

Arnold has made his Escape to the Enemy but M'r Andrie the Adjutant General of the British Army who came out as a Spy to negotiate the Business is our Prisoner.

His Excellency the Commander in Chief has arrived at West Point from Hartford and is no doubt taking the proper measures to unravel so Helish a plot.

The Board of Gen'l Officers appointed to Examine into the Care of Major Andre have been Reported.

1st—That he came on shore from the Vulture Sloop of Warr in the Night of the 21st of Sept'r last on an Interview with Gen'l Arnold in a private and secret manner.

2dly—That he changed his Dress within our Lines and under a fain name and in a Disguise Habitt pass'd our Works at Stoney and Verplanks point the Evening the 22d Sept'r last and was taken the 23d of Sept'r last at Tarry Town in a Disguised Habit being then on his way to New York and

when taken had in his possession several papers which contain'd Intelligence for the Enemy.

The Board having maturely Consider'd these Facts Do also Report to His Excellency Gen'l Washington That Major Andre Adjt Gen'l to the British Army ought to be Consider'd as a Spy from the Army and agreeable to the Law and Usage of the Nations it is therr opinion he ought to suffer death.

The Commander in Chief Directs the Execution of the above Sentence in usual way this afternoon at 5 Oclock precisely.

At a Division Gen'l Court Martial the 11th Sept'r last Lieut. Col'o Comd't Shearman President Major Albert Chapman was Try'd upon the following charges. First for Embezling public property & Endeavouring to induce the Q'r M'r of the Regiment to assist him in embezling powder for his own private use.

2d For making up two Enormous Bills against Col'o Nelson an Inhabitant of Morristown for taking up a stray'd Horse the property of said Nelson and that without any Expense to himself.

3dly For giving a Certificate to a Soldier in the 7th Cone't Regiment that he was Inlisted for three years only when he had repeatedly muster'd for during the War and Sworn to the Muster Rolls the Court after Considering the 1st and 2d Charge against Major Chapman are of opinion the charge of Imbezling public property is not supported therefore do acquit him of it, but finding him guilty of the other part of the first and of the 3d charge being a Breach of the Article fifth section the 1 D(?) of the Articles of War and do sentence him to be reprimanded in Gen'l Orders--The Gen'l is sorry to be under the disagreeable necessity of Differing in Opinion with the Court but thinks the Sentence Intirely Inadequate to charges so Seraries a Nature as those of which they find Maj'r Chapman Cuiltly he is releas'd from Arrest.

There was a mistake in Entering the Evening Orders of the 25th Al Insteed of the Pennsylvania Division the first Pennsylvania Brigade should have been mentioned as the second Brigade, did not receiving marching Orders for some hours after.

Extract from Genl. Orders Head Quarters Camp Totoway November 15th 1780.

As nothing adds more to the Beauty and appearance of a Corps than the Exact unafornity of dress the Genl. recommends it thus, early to the Field officers newly arranged to fix upon a fashion for the Regimental Cloathing of the officers of their respective Corps (if it is not already done) Conforming themselves to the Ground facing Lincing and Buttons already assigned to the State they belong the Genl. sees with concern the Difficulty the officers labour under in pro-

cureing Cloths it is not therefore his wish that those who are already furnished should run themselves to Expence of new uniform if there old are not Exactly conformable but that they should in future Comply strictly with the Regimental fashion and if possible get their old Cloaths alter'd. It has a very odd appearance Especially to Foreigners to see the same Core of Officers differing from each other in the fashion of the facing Sleeves and pocketts of their Coats attention to these Minuties has been thought necessary and proper in all Services it becomes so peculiarly so in ours at this time as we shall more than probably take the Field next Campaign in Conjunction with our allies Composed of the first Troops in Europe who will receive Impresions and form opinions from the first view this again Induces the Genl. to Exhort all officers who continue in service to make themselves perfectly Masters of everything Containd in the Rules and Regulations of the Army that there may be a strict uniformity in our manuevers and Deceplin especially in the Honours pay'd to Officers according to their several Ranks a thing Scrupously attended to and Expected in foreign service—Strict attention is to be paid to the order of the 18th of June last distinguishing the Rank of Officers by their Bages.

I wrote you yesterday as the people seems so difficult to believe that the terms will be complied with which I have engaged for & which you & they may rest fully assured shall be strictly & fully executed & fulfilled on my part without delay—to convince them of this I now send you Twenty thousand Dollars w'ch is a Months pay for Ten Teams but if you can get them to take one half the other to be paid here it will be better shoud you find it necessary to pay the first Brigade the whole some of one months pay advance do it & I will send you more, as this money is not the property of the United States you are on no Account nor on no pretence of emergency to dispose of it for any other purpose, but that of paying Waggons to come here agreeable to the conditions given you. I also send you paper of enlistment which the Owners are to Sign & w'ch is to be sent with me with every Brigade also their Apraisment must be sent that I may Sign it—as to the pay of Waggon Masters, I wrote you about it yesterday, & you must do what ever is best on this Occaision which is urgent & requires dispatch there is a Blank for the number of Months which the Teams engage for which must not be less than three Months but four or Six would be better if they please.

As I find the people in General are fearfull they will not get their pay when they come here, & as you may rely on all the Teams being strictly complied with in every respect, to convince you & them of this I now send you Twenty thousand Dolls. wch is the pay of one Brigade for one month, but I woud wish you if you think it will answer the intention & bring out the Teams to pay them one half the months pay advance the rest to be paid the moment they arrive here but should you think it best to pay the whole months pay advance do it, & I will immediately send you more money this will I hope bring the Teams out without the disagreeable mode of Impressing which I would wish to avoid rest assured every part of the engagement shall be strictly complied with, if you find any difficulty respecting the pay, of a W. M. you may if you think it prope. & necessary allow him Sixteen Dolls. pr. day Forage & Rations & four Dollars p day for his Horse as this Money is not the property of the United States, you must not on any account or on any pretence whatever use it, or aply it to any other purpose than that of paying for those teams now wanted—what ever expence you are at on this Account I will repay you & earnestly request every possible exertion in your power, & that the W. M. Gt. will assist you & all your friends have sent you the Terms of enlistment which the Owners of each brigade must Sign & send it to me with the Apptisment, have left the number of months blank, it must not be less than three months but four or Six would be better, of this the people must be the Judges for themselves.

There is a Brigade of Waggon now in Town, but have no money to pay them, one Brigade is come in from Cheser County which is paid out of the Money sent there, one other is ready, if the Money can be sent early in the morning—at least Sixty Thousand Dollars will be wanted in the morning & every day will require a sum of Money till the whole is compleated—I am informed Teams & Horses are purchased for you in Cheser County & every other County in the State—you are the Judge & have certainly a right to do as you please but perhap, it may not be good policy to employ

so many agents, pardon me for mentioning this; as my sincere wish is that you may be well & effectually served—to accomplish which every thing in my power shall be done, with the utmost cheerfulness & alacrity; both on this & every other Occasion the State Money sent to Chester County has not yet been pass'd—it would not be prudent to press it.

Sir,

I have the honour to inclose you Excellency Copy of the Contracts made with the proprietors of the several Teams sent by your desire to new Windsor and from thence to Hartford in Connecticut from whence they were sent to Rhoad Island --the Teams are as low as possible being less than Ten Shillings in Gold pr. day, when General Knox Pressed Teams in Bucks County in this State he allowed them Twenty shillings in gold or the Exchange and the several Waggon Masters in the Countys have offered Sixty pounds pr. day, those Sums are at least Double what I Give for those employed for the service of His most Christian Majesty's Army and will shew that there has been no want of proper Interest care or attention in the business—I have the pleasure of assuring your Excellency that I have done all that the nature and Situation of this Country would permit & believe you will find on enquiry that every that every part of the business has been Carefully attended to & my pains wanting to have it done on on the best Terms—and so soon as the present exhausted State of Horses & Teams would admit many of the Teams

remained a Considerable time at New Windsor or where they were ordered, before they were ordered, before any directions were given for them to proceed on to Hartford, I sent a Superintendent of Fifty Teams to the Marquis De la Fayette at Camp who gave him his Orders to proceed on to Hartford the 17th July if there was any error in their remaining at new Windsor it was for want of orders sent there sooner.

If I can render any service to his most Christian Majesty your Excellency or the Count De Rochambeau by going to Rhoad Island I shall do it with pleasure without any other View than that of giving him full information of the nature & manner of drawing forth the resources of this Country & the mode of obtaining what Supplies the army may want on the easiest and best terms and this can only be done by proper Care and attention to the business and having a Gentleman to do the Business whom the Gl. & your Excellency Can confide in & who will act with proper Spirit Honour and Integrity—I shall only beg leave to add that every Service in my Power is at your Command.

Philad. 22 August 1780.

Sir,

I herewith inclose you a Copy of my Letter to His Excellency the Chevalier De Luzerne with the Several papers there-

in mentioned which will fully Shew the manner of transacting the business you were pleased to recommend to my Care, I can truly assure you that every part has been done with the utmost attention and on the best Terms which you will see by examining my Letter Inclosed & the papers therein which fully explains the nature of the agreements the Rations of Each Man p day.

By the Agreements no Horse Waggon or Geers is to be paid for except they are Killed or taken by the Enemy or the Troops of his Most Christian Majesty or Drown'd by Crossing or recrossing the North river, in eiether of thos Cases the must produce a Certificate of the fact and then the two men who Appaised the Horses Waggon and Geers must be Qualified before a Majistrate that the appraisement is Just and true to the best of their knowledge and Judgment this put it out of the power of any Person to Alter the apraisment and is the best security to both parties that only Justice can can be obtained.

I beg leave to observe that the Destination of the Teams at New Windsor proceeded from want of Orders for them to go on, that being the place they were Ordered, and as soon as the Marquis Dela Fayette gave directions for them to proceed the went on as fast as they Cou'd be collected, and the first Devision Arrived at Hartford on the 17th July, as appears by Colo. Wadsworths Orders to Mr. Beard, and there was no Orders sent to forward the Teams on to Rhoad Island those Orders they rec'd from Colo. Wadsworth after the got to Hartford. It is fully evident that those prices was low and much less than was given by the British last War the gave 15f to 20f pr. Team in Specie when it was fully one Half more Valuable than at present, and the prices given by Genl. Knox and by the Waggon Masters in they Countys is double what I give for the Service of his Most Christian Majesty as it is now equal to 10f 1s gold pr. day for a four Horse Team and Driver. I am fully Satisfied the business could not be done one better Terms which will appear on every examination into the matter, as to Teams delaying on the road it is a complain t unjustly made, but very Defeult to be reimeded it has been often tried and Several W. M. punished but Still the will delay at times whate they have it in their power—I cannot be expected to be answerable for this the Rations for Men and Horses is fully explained in the paper annexed to the agreement.

I flatter myself it will appear every thing has been done that

the Nature & Situation of the times would admit of this. I am certain that I have been and am Sincerely deposed to Render every Service in my power at all times and on every Occasion.

Philadelphia 30th Sept. 1780.

Dr. Sir,

On the Return of the Teams from the French Service I requested the Waggon Conductors to make out their pay-Rolls, which was done by all but Mr. Gill & Mr. Rowan, who went off without, as Mr. Williamson has been has been Obliged to take Care of Mr. Gills Brigade for some time Gill having been taken into Custody at West Point for some misconduct on the road I desired Mr. Williamson to make out his pay-Roll which he has done, but Gill having Provisions & Rum here & having furnished no Acco't of what was done with it I finde it necessary to have part of the money stoped till this matter is cleared up. Mr. Rowan has left no acco't of any kind—Mr.

Buchannon has left his pay Role with Mr. Scull & hope to be able to pay him the money the moment Mr. Holker Furnishes the Cash it Shall be paid, as he is the person to be looked up to for this Business—Mr. Buchannan & Mr. Williamson have done every thing proper and necessary. I can't say so much of the Others I sent after Mr. Gill but he did not see proper to return Mr. Rowan went intirely without my knowledge for what reason I can't Say, but it has been injurious to the owners of the Teams as I cannot Send their pay before the Accounts are properly made Out.

I have detained one Thousand Pounds being part of the pay due Mr. Gill for his Team hire & Weages till he settles the Account of Provisions he received here of which he has rendered no Account.

I am with esteem

I have this moment received your favour of this date my acco'ts Can be produced at any time as some of the persons to whom mony may be due on settlement, live in the Country. I must wait their coming but the accounts as They stand, may be delivered yo. when you please—when I undertook this business it was with an intension of rendering our great & good ally all the service in my power, and to render every degree of service, & respect to his Excell. The Minister of France whom I revere & esteem—and also to do all in my power to serve Mr. Holker, to whom I shall at all Times be pleased to have an opp'o of shewing my attention and respect—you mention that what monies may remain in my hands shall be paid you, and When you would apply to his Excell. The Minister to know what should be allowed me for my Trouble &c. I apprehend this is giving unnecessary trouble, but I believe there will not be much mony in my hands when every Thing is settled, you know what you've allowed for purchase of horses &c. &c. & I believe it is a self evident thing, that I have had, at least, double the Trouble Those Gentlemen had—I would of chiose purchase horses, Teams, provisions &c at 2½ p'o rather than goe Through the business I have done at 5 p'o this I believe you must be convinced of—yet I shall make no further observation on the subject, you will

please to present this matter as you think proper to the Minister & when you let me know his & your determination the accounts shall be finished; it cannot be unreasonable to have This done—it will at all Times give me pleasure to shew my respects for his Excell: The Chevalier Dela Luzerne & Mr. Holker & to render them every degree of service, & politeness in my power—I will not say anything on the subject of the Care & attention to the business, let it speak for itself—I have the honour to be &c.

John Holker Esqr.

I am favour'd with yours of this morning, the acco'ts are now closed, Mr. Culnan will call on you, to shew the state of them no Time or pains shall be wanting to finish them as I am as anxious on that head as you can be & would wish to have them done to please you, if there was no other reasons—As to what you say respecting a Commission, I shall only answer that the trouble & attention must be obvious to you. I doubt not I will be at least on as good terms as any other who has transacted the business of the Army—I have before mention'd my motives for engaging in the measure & will at all Times be ready to render any service in my power without any stipulation on my side, on my side, as it will give me real pleasure to render you everything that can be either of use to you, or your friends; my disposition has ever been to serve His Excell. the Minister of France on all occasions; you may depend that there will be no Sum allowed by him, that will not exceed the money I have received or That will remain in my hands.

I have the honour to answer your esteemed favour of yesterday to inform you it is absolutely out of my power to retain any sum to cover Monsr. De Corneys advances to the different artificers, aluded to in his Letter, whereas I've settled & paid (upwards of two months) every farthing owing to the Waggoners in service of our Illustrious Ally—Jonathan Simmonds the first Time I've heard his name mention'd consequently had no anticipation of his demand on Monsr. De Corney, nor did this Gent. ever hint to me to deduct any

sums from Waggoners, except these that you'll find a list inclosed--You likewise have one of the Route from hence to Baltimore & a &c for your governm't.

I am &c.

You may depend I shall endeavour to recover The Waggoners to Cover Monsr. De Corneys demands.

I was much surpris'd at being Called on, by a Mr. James Wright for pay of two teams, sent by you for Service of his Most Christian Majesty, as you have a much larger sum in your hands, which I sent you in June last, with positive directions, & instructions to apply it to paying & procuring Teams for that service, and have your acknowledgm't both in writing & before Witness of your having received that sum--Those Teams are returned to me & enter'd in your & your sons names, if you do not pay the hire of those Teams (if they are not yours & your sons). you may expect both trouble & expence, & other inconveniences the people will not be kept out of their mony, and you may depend the Agents of his Most Christian Majesty will take proper & public steps to have this matter settled, you have had a Considerable indulgence already, & doubt not you will do what is just, and consistent, you know the United States have no right to any monys put into a mans hands, for the use of our Ally, and that you must be accountab'e for the mony--As I have had a good opinion of you, doubt not you will act w'th propriety on this occasion.

To ye worthy William Keith Esqr. Luitenant Governour of ye province of Penssilvania &c, and to his honourable Council, Ctr.

The adress of ye housholders of the Township of Whitland humbly sheweth that whereas you were pleased some time agoe to order John Cartlige Isaac Taylor &c To view and lay out a Road Leading from Thomas Moores at Brandywine to Conostogoe; and some of ye sd-viewers Through wrong and prejudicial Information are inclining to lay out a new Road, Through our Township, parallel for 9 or 10 miles length, with a good beaten Road, (formerly laid out by order of Court; Returned and Recorded with Court & distance) about half a mile distant from ye now intended Road; now your petitioners humbly craves that you will be pleased to prevent this intended evil Thrown upon us, an evil we say in

ye beginning an evil without end; by entailing a necessity upon us, and our successors of maintaining Two Roads where there is occasion but of one, and yet a much better Road than is possible to make ye other (unless it may be conceived to ye Rivers to a                    above its own Rise or fountain) and all this to gratifie a family or two, or perhaps under a protest of somewhat nearer which by estimation Tis Thought not 20 perches shorter in 10 or 12 miles going, whereas ye old Road is advantageous to ye Township at Uncllan, Cain and many more northern Inhabitants and ye none Required one being at Least 4 miles to ye northward of all Inhabitants southerly one or two excepted, yt if roth'd on warrant which got his out of their way to make use of to Philad'ia, besides yt difference of charge that ye new Road will require will be as ten to one, having 12 or 14 Creeks or Runs to cross, Swamps & Cripples to close, Causways to make, bridges & arches of stone to build, (for Timber will be swept away every fresh or glut of Rain and that which is our chief bulwark and defence against Judgment & poverty (next to ye blessing of a good Government) and that ye enable us to be Rather helpful than burthensome to ye State; we mean our land & plantation will be rendered unprofitable unto us, in cutting them into Shreds & gusht, maintained of double, nay Quadruple fences; so yt we may safely lay yt will be a greater damage or charge to us than any Tax subsidy or levy y't we have yet had, or perhaps may have for many years to Come, having thus abruptly stated our Case hope we shall finde Cause to say y't we live under a Governour and in a Government, whose ministers Chief Study and Concern is to hear and Redress y't complaints and grievances of y't people Committed to their Care; by preventing what may be Injurious at present as also what may prove the Reason of Succeeding times, and we on our parts under those Considerations, according to our particular assessments Shall willingly (even if these were no necessity) Contribute toward ye support of such an administration; so Relying on your (Hon'ble) we your petitioners as in duty bound Shall pray for your prosperity here, and Recompence in ye Mansions of Glory here-after, to which we Subscribe.

To the Honourable Patrick Gordon Esq'r Governor of the Province of Pensylvania, New Castle Kent and Sussex on Delaware And Council.

The Petition of the Inhabitants of the upper part of the County of Chester Sheweth that by Reason of the Great Distance, we live from the County Town Where Elections & Court are held & publick Offices kept, The arm of Justice is weakened. The benefit of many Good & wholesome Laws almost if not Intirely Lost, & ye person, who has Occasion to Apply to them, put to great and Burdencom Expencc, Thieves Vagabonds & Ill people—Buddiy Infest our parts (Counting themselves beyond the Reach of Law) to the Disturbance of

the Peace & very great Damage of the Inhabitants it being almost Impossible to take & Secure Such Villains where Justices & Constables are So thin plac'd as not one in Twenty or thirty Miles, & Assistance Difficult to be raised on Such Occasions Amongst people who would fiedly Serve but are Deterred by want of Ready Cash, to bear ye Charges of a Journey of Eighty or a hundred Miles to the County Jail, and as we are Mostly new Setlers far from a Market, and Trade and Commerce among our Selves Mostly by way of Barter, Money cannot be Supposed plenty. Therefore when Law Suits prove Necessary to Recover our Just Debts, the trouble and Expence of Travelling to Obtain a Writt or Sumons, having it Serv'd bringing Evidence (when needful) attending Two or three Courts, the Repeated Journeys amount to three or four hundred Miles, Besides the loss of much time, all which being A ready Money Charge makes the Recovery of a Small Sum more detrimental than the loss of it, and is a very Great Oppression of the Debtor, and in debts under forty Shillings which cannot be recovered without an Execution. The action Drops rather then Cause So great a Charge as would Accrue if the party be Sent to Jail, & taken from his friends (if any) who might Assist him, Run away Servants & Suspicious persons who often come this way to hide among us or Escape into the back parts of Maryland are Seldom taken up. The Reward for Runaways not answering the Trouble, And to far to Send Suspected Persons til they can make proof of their Cleanness. Our highways are unrepaired, Townships Undivided nor Bridges Built, where they are wanted nor can our Taxes be as Regulary Laid, or our Griovance likely to be Redressed when the mean Distance to the nearest place of Appeal is at least fifty Miles, and neither Comishouer nor more then one Assessor (if that) Elected in many years within the Circle of five hundred families, These and many more Inconveniencs of the like nature, & from the Same Cause which may Occur to you on a serious Reflection, we humbly offer to our Consideration, Hoping as wee are his Majesties Leige Subjects, And Justly Entituled to all the ease & Advantages the Law will Afford, You will in Your Care for the Publick good be Ready to Redress, And in Order thereto as most of Your petitioners Liveing fifty or Eighty Miles from Chester & Some much further, and ye Bounds Yearly Enlarging, We humbly pray you would be pleased to Order A Division line to be made between the upper and lower part of Chester County, which upper Division when So

made may be a County and Called ye County of with Priviledge Granted to Elect Representatives, A Sheriff, & Other Officers in number and Names as they are now Elected in Chester County. And have all other Officers, Offices powers and priviledges Equal with Other Countys, This we humbly Conceive would be the most Effectual means of Redress, of Great East and benefit to Your Petitioners, and no ways Prejudicial to Chester County or the province in General And for which your Petitioners as in Duty Bound Shall pray &c.

The Petition of the Majestates Grandjury and other Inhabetants of the County of Lancaster met at Lancaster their General Court of Quarter Sessions The Third day of November 1730 humbly sheweth, That your petitioners living far from a Seaport Town or Navigable water are Obliged to convey the product of our Labours to Philadelphia by land Carriage which Burden is much Encreased by want of Suitable Roads for Wagons & other Carriages to pass, There being no publick high ways yet layd out in this County to Philadelphia suitable to Answer the said occasion, nor (as we are well Informed) Through some part of Chester County.

We therefore Humbly pray you would please to appoint Suitable persons to View and lay out a Road from a Town of Lancaster till it wil' conveniently fall in with the Kings Road in Chester County leading to Philadelphia, And in such place as may best Accomodate the aforesaid Service and also grant a review of the publick Road from thence to the ferrey of Sculkill at high Street we Having been Credibly Informed that the Roads are in Several places removed from where they were laid out very much to the demagging the said Roads, And rendring thence more unfit for Traveling.

To the Right Honourable the Governour of Pensylvania & to the Honourable Council.

The Humble Petition of Us the Inhabitants in several Parts of your Neighbouring Province of Nova Caesarea Humbly Sheweth that whereas We are assured a certain Person nam'd Daniel Howel is endeavouring to procure a new Road thro' your Province from York to Philadelphia and is for that end preparing or has actually presented a Petition to your Excellency. We thought it therefore our Duty to inform you that the said Daniel Howel is acted only by a Private Interest and that He has already got a Road laid out here to the extream Damage of our own Country and in opposition to a very good Road and Ferry here as well as in your Excellency's Province, of all which We have in an humble Petition inform'd our own Governour and knowing farther that your discourtenancing the said Daniel Howel, will in a great measure defeat his pernicious designs here. We make bold humbly to petition your Excellency & your Council to give no encouragement to the said evil Person, We being already extremely well satisfied with the Road now in Use to that commonly call'd Well's Ferry which We esteem by much the conveniencst both for Philadelphia or York.

And your Petitioners shall ever pray.

To the Honourable Patrick Gordon Esqr. Lieutenant Governor of the Province of Pennsylvania and New Castle, Kent and Sussex upon Delaware as also to the Honourable the Members of His Majesties Council For the Province aforesaid convened.

The Petition of sundry the Inhabitants of the Counties of Chester and Lancaster whose Names are hereunto Subscribed. Humbly Sheweth.

That Your Petitioners being seating for the most Part at a great Distance from the City of Philadelphia in a Part of the said Counties where no Publick Road is as yet Established and having long laboured under many inconveniences through the want of such a Road whereby they might have free access to the market to their very great Loss and Detriment.

Now your Petitioners humbly represent that several of them having bestowed much Time and Pains in making diligent Search where a Road might be laid out that would relieve them from the said Inconveniences & to the best Advantage of your Petitioners in general they have discovered that a very good one might be laid out from John Beris's Ferry on Susquehanna River to join with the Road lately confirmed from Lancaster Town to Philadelphia near the now dwelling Plantation of Edward Pen commonly known by the Name of Edward Kennisons in the great Valley or thereabouts which said Road cannot fail to be of universal Service to your Petitioners in general & a Detriment to none of the Inhabitants of the said Counties in particular it being also a much nearer Cutt than any Road ever yet laid out or travelled to Philadelphia from the said Place of Beginning.

Your Petitioners therefore most Humbly pray that your Honours in your Great Wisdom maturely weighing the many Benefits that will consequently accrue as well to trading in General as to your Petitioners in Particular by a more speedy & easy Conveyance of their Commodities to the Market will vouchsafe to issue Orders to such Persons as your Honours shall esteem Capable to View and Lay out the said Road to the Best Advantage of your Petitioners.

Most Humbly Shewed

That whereas the Gentlemen in Company concerned in the Ironworks in Coventry on the French Creek by their great Expence Care & Industry have carried on the Said Works to such Perfection that they are not only of great Benefit to themselves but also very Advantageous to the Province & more Particularly to the Inhabitants of this County whose Distance from Philadelphia requires Large Quantities of Iron to fit out their Waggones & Appertainances, with which we have been in General very well & serviceably supply'd from the said Works these many years; & whereas y<sup>r</sup> P<sup>ts</sup> have all along laboured under great Distress & Hardship; for want

of Passable Roads in Carriage of the said Iron & such Commodities for Provision as are received in Barter for the same; notwithstanding the said Company at their Private Expence have erected Bridges & Causeys in some Places before quite unpassable; & further whereas your Petit'rs have been at some Expence in attending the Courts of Quarter Session at Lancaster in Hopes of Relief without any Success.

Your Petitioners therefore most humbly presume to Present this their Aggrievance to the Serious & Wise Consideration of your Honourable Board. And also most humbly Pray that your Honours would please to nominate & empower such a Number of Substantial Honest Impartial Men as to your Wisdom shall seem expedient to View and Lay out a Passable Waggon Road from the Town of Lancaster to the Ironworks in Coventry afores'd & to Fork near the Widow Roberts Plantation one Branch whereof to go to the new Furnace now Erecting on the French Creek called Redding Furnace, from thence into a Road lately laid out from the Yellow Spring to German Mill & from thence into the Conastogo Road; with the least Injury to the Settlements & to avoid all Reasonable Cause of Complaints which Road when Laid out will be a great Encouragement to the Inhabitants of this County to proceed cheerfully with their Improvements to the Advancement of Trade & the general Benefit.

Sundry Inhabitants of Lancaster for a Road from Lancaster town to Coventry from.

July, 25th 1736.

Read & referred for further consideration.

To The Right Honourable, James Logan—President in Council at Philadelphia.

Sr. May it please Your Honour—

In Answer to an order the 23d of January Last past, from the Govern, and Council, To us Directed To view and Lay Out a high Road from John Harry's Ferry upon Susquehana River Leading to Philadelphia; In order thereunto—We met the first Day of June last To view and Lay out the Said Road and taking the best care we Could of Private mans Interest, where the Ground and for the Good of the Road would Answer, finding that a good Road may be had and believing That this Road will be of Service to all the publick trade and Business Depending on; In thy province and an univrsale good to all More Especially to those Back Inhabitants of this province of Pensilvania, which have Petitioned for the Said Road, in order to Transport their goods to Market at Philde and which undoubtedly will be of great Service towards the Settling of those Back parts of thy Province. James Armstrong and John Foster not being provided for the Journey throughout; they parted with us well Satisfied, and Gave as or Some of us power to sign the Return for them Committing the Care of the whole Affairs to us. We, Hans Graff, John Mendenhall, John Davis, John Friedrich and Rees Price Tak-

ing all the Care we Could Continued and Lay out the Said Road through the County of Lancaster to the County Line; then met with by the Gent'men of Chester County; Appointed to Continue the Said Road and we with them Continued in Laying out the Said road To the place pray'd, for or there about. And Whereas a petition hath been presented to your Honorable Council To Present the Great Abuse or Detriment they are Like to Receive by the Said Road, and also that the men so Appointed to Lay out the Said Road, hath not Discharged the trust that was Reposed in them and to Serve private mens Intrust or to Serve Some particular persons, without Considering the true Intrest of ye Publick, which Assertions we utterly Deny and that They are all false, and Groundless and of themselves unsupportable; We as afore Said being Accompanied with Several other Substauciall Inhabitants Being two weeks a Continuing the Said Road to the County Line then met with As aforesaid, Unanimously a Greering, Continued the Same to the Township of Calan, and there met with by Several of The frecholders of the Said Township, and of the Township of Yunchland and Whitehand, who Inform'd us that they Had been Serching Near two Days in the said Township to find the by Way that Could be had, and had Mark'd apart of the way and we for fear that Some Self Intrest might be in Some there; we look one whole Day to Serch and View wither or not there Could be a better way found; which we Could not find a Better way and they told us that If there must be any Road had at all, that it was the best as Could be had but that they had Rather be ridd of the Trouble of it, But being in a General Way Satisfyed, we Continued to Lay out the Said Road (and for the Grounds Being so bad as it hath been Represented it is not so) for a good road may be had without much Charge or Trouble. And as for the Petitioners Against the Said Road for most part of them had not Seen where it way Layd out Nor knew nothing about it, but as Some others had told them before they Sent the Petition; one of the Jury being of one of the Said Townships was well Satisfyed the Return and we the Rest of the Jury upon the view, and best Information we Could gett. have Cause to Believe that the Said road will be a very profitable and Commodious and add much to ye Intrest of the publick of this province in General; If your Hon'ble in your wisdom See Cause why this Road may not be Confirmed we humbly pray that we may be Heard,

and we Doubt not But we Shall (by your Honour's permit-  
ance) Give full Satisfaction.

To the Hon'ble George Thomas Esq'r Lieut. Governour of  
the Province of Pennsylvania, and of the Counties of New-  
castle, Kent and Sussex on Delaware, And to the Hon'ble  
Council of the said Province.

The Petition of divers Inhabitants of the Counties of Phil-  
adelphia, Chester and Lancaster, in behalf of themselves and  
other Inhabitants of the said Prvince.

Humbly Sheweth,

That Whereas upon the Petition of divers of the Inhabi-  
tants of the said Counties, to the Late Govern'r and Council  
of this Province, praying that a Road might be laid out from  
the Town of Lancaster, thro' the Counties of Lancaster,  
Chester and Philadelphia to the ferry on Schuylkill called  
High Street Ferry at the West end of Philadelphia City; An  
order was issued about eight years ago, authorizing & ap-  
pointing a considerable numb. of Persons in the said Order  
name (Some out of each of the s'd Counties, as us'd in like  
cases) to view, and to lay out a Road accordingly; And in  
pursuance thereof a Road was laid out in the year 1733 from

the Town of Lancaster, thro' the County of Lancaster, & part of the County of Chester, to the plantation of one John Spruce in the s'd county of Chester, which is little more than half the distance to Philad'a. A Return of which part being made to that Board, the same was confirmed. But the further execution of the s'd Order in laying out the remaining part of the s'd Road, either thro' the indisposition of some of the persons appointed, several of which soon after died or for other causes unknown to your Petitioners, has been hitherto deferred and altho' from the said John Spruce's to Philada. there is a Road left open, yet the same is in many places very inconvenient, and as it is not Legally established, and therefore not repaired by the Overseers of the High Ways, it is become very dangerous, & very injurious to the large Trade of the numerous Inhabitants to the City of Philadelphia.

Your Petitioners therefore humbly pray That this Hon'ble Board would be pleased to appoint proper Persons to view & to lay out the said Road from the end of the Road already confirmed, near the Plantation of John Spruce in the County of Chester to High Street Ferry afores'd According to a Law of this Province in Such Case made and provided.

Decr. 15th 1740.

City of Philadelphia.

To the Honourable John Penn Esq. Lieutenant Governor of the Province of Pennsylvania, And To The Honourable The Members of his Council. -----

The Petition of divers inhabitants of the City of Philadelphia.

Most Respectfully Sheweth

THAT Your Petitioners are Informed a new Road from this City to the Village of Strasburg, leading to the Borough of Lancaster, is by your order lately laid out. That the Ground over which it is laid is good and suitable for the purpose—That the said Road is much shorter to the said village

\* \* \* \* \* to a number of well settled back Townships, than the old Road was. In use, or than any other Ground of equal goodness will admit of, and that Notwithstanding these Facts great opposition is Raised against a Construction of the said Road.

YOUR Petitioners therefore beg leave to represent to the Governour and Council---

THAT it is of great Importance to the People of this Province to have such Roads as may Promote the Trade thereof, being the best Communication in their Power between the Capital City and the Back Inhabitants, and thereby lessen the Expence of bringing the produce of the Country to Market, and Supplying the Back Counties with such Foreign Commodities as they may Require.----- THAT Trade and Commerce on which the Welfare and Happiness of every Community depend, is in this province supported under disadvantages which several of the neighbouring Colonies are free from—Their Water Carriage affording their Remote Inhabitants an easy Transportation of all Commodities for Market—while ours are discouraged by a Length of Road, laid generally on bad Ground, Crooked and Ill supported.-----

Your Petitioners therefore pray the Governour and Council, to take the Premises into their Consideration and Confirm the said New Road.

Presented to the Governor & Council 10th Nov. 1770.

To the Honorable John Penn Esquire Lieutenant Governor of the Province of Pennsylvania and Counties of New Castle Kent & Sussex on Delaware and his Honourable Council.—

The Petition of divers Inhabitants of the County of Lancaster Humbly Sheweth

That the Great Road from the upper parts of the said County, especially from the Borough of Lancaster, to Philadelphia, is by the constant use of it with heavy Loaded Carriages, and by its being laid in many places over very bad ground, now rendered almost impossible, and is attended in many parts of it with such Danger & Difficulty, that the Waggoners in many Seasons are under the necessity, when heavy loaded, to, or from the Philadelphia Market, of travelling in Parties, that they may Afford each other Assistance.—

That notwithstanding the great Labour, Care and Expence used in repairing the said Road, it is Constantly in bad Order; and as the Trade & Commerce of the Province increases, & it is more used by heavy carriages, will be still more troublesome & difficult.—

That another Road upon better ground, and nearer by some Miles, may be had, and is now absolutely necessary for the accommodation of the back Inhabitants of the said County in their Commercial intercourse with the City of Philadelphia—. The want of a good Road seems to threaten a diversion of the valuable Trade of this County, or some parts of it, to other places; and now, not only, actually prevents many Farmers from Attending the City markets; but puts them under the disagreeable necessity of trusting, and giving Commissions to others to Carry the produce of their Farms to Market, by which, many have suffered greatly; Whereas were the Roads Good and safe, their own horses & Carriages might be employed for that Purpose, and would take back for them Salt & other Articles for their home consumption, which they could purchase most reasonable in the City.—

That a Kings Highway or Public Road hath lately been laid out by Order of the Governor and Council, from the Middle-Ferry on Schuylkill to the Sign of the Ship in Chester County; & from thence along or near the old Gap-Road as far as the Village of Strasburg in Lancaster County—This Road Your Petitioners beg leave to say, is laid out on much better ground than the old Road, is some miles shorter; & your Petitioners conceive is the best, straightest and most convenient Road for the back Inhabitants; and will be of Great Utility to the Trade of Philadelphia—. The Inhabitants of Lancaster; and such as shall choose to pass through that Town, from the remote parts of the Province, will have an easy road from thence to the said Public Road; whereby they will shun eight or ten miles of Hills & bad ground, which are upon the old Road between the said Town & the Sign of the Ship; & those who it may best Suit to take the back Road, from Harris's by the Dunbar Town (formerly called Peter's Road) may cross into the said newlaid out Road, near the North Branch of Brandywine Creek; & by that means have an easy, safe & shorter Carriage from thence to Philadelphia.—

Your Petitioners therefore pray the Honourable Governor & Council to take the Premises into Consideration, and as the said New Road seems to have been laid out chiefly with design to encourage & settle the Trade of the Inhabitants of the interior parts of the Province to the City of Philadelphia, & is the Road yet pointed out for that purpose, to Continue the said Newlaid out Road to be Kings Highway or Public Road

and to order that the same may be forthwith opened & cleared——.

And your Petitioners will pray &c.

To His Honour the Governor and Council in Philadelphia  
Sitting.

The Humble Petition of the Inhabitants in General of the  
Township of Solebury in the County of Bucks Humbly Shew-  
eth—

Whereas there was a Road laid out from Philadelphia to the  
River Delaware opposite John Reading's Landing, many Years  
ago by Order of the Governor and Council, upon the Promise  
of the said John Reading's and the Inhabitants of West Jer-  
sey laying Out a Road from the said John Reading's Landing  
afore said to New York--- But instead of bringing the said  
Road to the said John Reading's Landing as'd (they to wit)  
the Inhabitants of West Jersey afore said, brought the Road  
Opposite to John Well's about three miles below the said Jon.  
Reading's Cr. Which Obliged the Inhabitants of Solebury  
afore said To Petition to the Court of Quarter Sessions in  
Buck for a Road from John Well's into the former Road  
near Buckingham Meeting House being near five Miles, And a  
Ferry being settled unto the said John Well's by an Act of  
Assembly of this Province whereby the Road to New York  
might be accommodat'd--- Which renders that part of  
the afore said Road from Buckingham Meeting House to the  
River opposite John Reading Landing afore said, which is now  
Daniel Howel's useless and Unnecessary--- And the said  
Dan'l Howel endeavours to force us Your Petitioners to open  
the Road from Buckingham Meeting house to the River as  
afore said, Thereby to promote a ferry which would be a  
great Damage to Your Petitioners in Cutting Our Lands and  
also to ye aforesaid John Wells in Pericular And Whereas  
some time since some of the Inhabitants of solebury aff'd. Did  
Humbly Petition his Honour the Governour & Council aff'd.  
That that part of the Road from Buckingham Meeting House  
to the River opposite to Dan'l Howels Landing formerly called  
John Readings Landing might be Disanul'd-- and that part  
from Buckingham Meeting House to John Well's ferry might  
be Establish'd in ye room thereof And Whereas some other  
Persons of the Inhabitants of solebury aff'd. has Petitioned  
His Honour the Governor C. That that part of the Road  
from Buckingham Meeting House to the River opposite Daniel  
Howel's Landing might be open'd--- But since the afore-  
said Petitions are now deliver'd in order for a hearing the  
Inhabitants of solebury and. have Mett, and upon further Con-  
sideration hath Generally Concluded that if in case the Road

was opened to the River opposite to Dan'l Howels Landing as afd, it would be very Injurious to some of the Inhabitants Lands and also the place of the River against Dan'l Howels Landing is not Commodious nor Necessary for a Ferry, inas-much as the said John Wells Ferry is but about three miles below the said Dan'l Howel's Landing. Also the afd. John Wells having kept the ferry Divers Years w'th good Boats very good accomodations in his House for Travelers. A Man well beloved of his Neighbours for keeping good orders in his House, has always behaved himself well to all Persons as becomes him in such his Vocation, therefore the Humble request of Your Petitioners is that You in Your Wisdom would Consider the Premises aforesaid, and your favouring our request will much Oblige your Petitioners, and we shall as in Duty Bound ever pray &c ———

We the Subscribers to this Collum of the above petition do Certifie that we know the matter Contain'd in said petition to be true, & therefore pray the Governors & Councils Consideration of the same as such.

To the Honourable Sir Patrick Gordon Esqr. Governour of the province of Pennsylvania and to his Honourable Councils—

The humble petition of the Inhabitance in and About frankford Sheweth

That Whereas it hath been proposed, that a new bridge should be made over frankford Creek, Because of the badness of the Way and ford. Where, it now is, and the Danger of Carts And Wagons oversetting and Children falling in to the Creek and Some Travellers being in Danger of being drowned, it being also very Inconvenient for all Carriage to and from (The Metropolitan City of the Province;) Philad and it being the Great High Road of America, wants Above halfe the breadth of sd. Road from Philad to bucks which is 60 feet and This is not near Half the Breadth. It is So narrow that two Carriages Cannot pass by one Another, Colt: Burnet and his Lady with divers others in his Coach was overset, two Gentlemen Were overset in the Creek in a Chase. Two Children last Summer fell into the Creek and In all likelihood had been Drowned, if help had not been neigh, and Carriages have been break And overset through the badness and narrowness of the Way and at high water when their is a fresh in the Creek there is no passing at all; also the Road for About a Quarter of a Mile to And from the Old bridg is very Mirey and Costs the County a great deale in Repairing On boath Sides of the Bridg. Besides the Greate Charge of maintaining three Bridges, And building a Wall, to Support the bad narrow way, wch if built, is in Danger of being Undermin'd by floods, wch in Great Rains is very Raped, Wee humbly Conceive that one Single New Bridg, a Little Lower down the Creek will Ease the County of a Continuall Great Charge In Repairing all the Above, as well as Accomodate Strangers and Travellers and the Inhabitance of the Township and County. Wee have also understood that the Gentlemen in Comissioner to Survey sd. Poad is also of the Same mind with us, that there is need of an Alteration in Relation to this affaire, it being nearer, Cleaner, and much Less Chargeable where it is Proposed To bee and wee desire that the afore Said Gentlemen may have a Second Premise, So wee pray that in your Wisdom you would be pleased to Consider the General Advantage In this Case and your petitioners Shall Ever prayes in dutyBound--

The Petition of Sundry of the Inhabitants of Westmoreland County,

Sheweth

That your Petitioners in Consequence of the First Alarm in these Parts did assemble at Hanna's Town, where at their own Expence they erected a Small Fortification as a Shelter for their Wives, and Families during the Troublesome Times, & under direction of the Gentlemen of the Association, voluntarily took up Arms for the General defence of this part of the Country, till such Time as your Honor & the Honble assembly were pleased to approve of our proceedings. Your Petitioners thought themselves extremely happy and Secure, when your Honor & the Honble Assembly so considerably order'd a Number of Troops to be embodied for our General protection and safety, but your Petitioners are now rendered very uneasy by the Removal of these Troops their Arms & Amunition, on which your Petitioners greatest dependence lay, and which we your Petitioners farther understand are ordered to the Kittaning, a place at least distant from any of the Settlements Twenty five or Thirty Miles. Your petitioners by being left thus exposed, without Arms or Amunition, humbly conceive themselves to be in great Danger from the Enemy, and are sorry to observe to your Honor and the Honble Assembly, that tis the general, as well as the humble opinion of your Petitioners, that removing the Troops to so distant and uninhabited a part of the Province as the Kittaning, cannot answer the good purpose for which they were intended, but appears calculated only by the advice of some who prefer their own private Interest to the Public Welfare. Your Petitioners are farther more fully of opinion that, some ill disposed person or Persons have misrepresented our real Situation to your Honor and the Honble Assembly, otherwise we

could not conceive that your Honor and the Honble Assembly would leave us exposed and Defenceless in the manner we now are. Your Petitioners therefore most humbly request, that your Honor would be pleased to consider their Alarming Situation, and order such Assistance as their defenceless condition requires. And your Petitioners as in Duty bound shall pray &Ca.

To the Honorable John Penn Esquire Governor & Commander in Chief in and over the Province of Pennsylvania and Counties of New Castle Kent and Sussex upon Delaware. The Petition of the Inhabitants of Westmorland county Humbly Sheweth

That there is great Reason to fear that this Part of the County w<sup>ill</sup> soon be Involved in an Indian War That the consequences will most probably be striking as the country is in a defenceless State without any Places of Strength Stock of amunition or necessary Stores.

That the abandoning the country must be attended with total Ruin to great numbers who are now in an easy Situation but almost distracted with the Apprehensions of Seeing their Helpless Infants fall a Sacrifice to Savage Cruelty and this will most Certainly be the Event unless they meet with some Protection.

In these Circumstances next to the Almighty they look up to your Honour and Hope you will take their Case into consideration and afford them such Relief as to your Honour shall seem meet
